Callender, William L., House (TEX-247)

Structure

404 W. Guadalupe St. Wooden frame, 44'3" (five-bay front) x 55'3", two stories and raised basement, gable roof, pitch extends over giant portico, with five shallow arches cut into the wooden fascia marking the bays between six square-sided columns. Flight of steps leads to porch deck and main floor. Half-frame windows in second story slide into the wall horizontally when opened. Precut lumber was ordered from the east by Dr. Stephen F. Cocke in 1854; the house built in 1855. Occupied from 1871 to 1895 by (over)

William L. Callender, an attorney whose family added a rear two-story wing. 4 sheets (1936, including plans, elevations, section, details); 1 ext photo (1936); 1 data page (1936).

Card prepared July 1975.
